SUMMARY

With a strong foundation in React, Next.js, HTML, CSS, JavaScript, and TypeScript, I excel in frontend development. My problem-solving and analytical skills have been honed through analyzing production processes, overseeing maintenance, and supervising production teams to ensure smooth operations. **I have also completed comprehensive training at the Creative IT Institute**, further enhancing my proficiency in MERN stack development. Additionally, **I have six months of hands-on experience at Nexlent as a frontend developer**, where I also contributed to backend tasks such as creating REST APIs and authentication mechanisms.
